DEBORAH A. HUDMAN ON TICK SAFETY

Deb Hudman, Senior Research Associate at ATSU Department of Microbiology and Immunology, spoke about various ticks and tick borne diseases found in northeast Missouri and how we can minimize our risks. She said to stay in the middle of trails and tuck your pants in your socks. Mow your fields often or do burns every year and a half. She said tick events are on the rise this year, particularly since we had such a mild winter. In her research, Ms. Hudman has collected 15,000 ticks in Adair County! Pictured from left are President Jill Williams, Deb Hudman and Rebecca Emlund, who introduced the speaker.
