DAN GETMAN ON “ADVENTURES IN BIRD PHOTOGRAPHY”

In Randy Rogers’s introduction we learned that our speaker Dan has a PhD in chemistry and previously worked in pharmaceutical research and development for over 30 years, most recently with Pfizer. He is now retired and consults for several universities. He and his wife Kathy moved to Kirksville in 2012.

Dan has been an avid bird photographer for 10 years and often travels to observe and photograph birds - some of which he shared with us today via powerpoint photos of prairie chickens, swans and several species of owls as well as other birds.

Visit:flickr.com/photos/dgetman/sets to view his photos. Dan said, if you have any questions, contact him at <daniel.p.getman@me.com> or by phone 314-560-5883. He is pictured above with Randy Rogers (left).

50-50 Drawing: Ralph Cupelli did not pull the ace of spades; pot now up to $1,974.
